

Interested in becoming a Motor Mechanic?

Check out our Year 11 P-TECH student Bryce and see what he is up to. As part of his Certificate III in Automotive, Bryce is learning lots of skills at Blood Toyota where he attends a weekly work placement. Thanks to the support of the staff at Blood Toyota, Bryce is able to experience "Life as a Mechanic" in the real world of work. Barrie and his staff are very keen to assist students interested in a Motor Mechanics pathway. Barrie was pleased to report that our two past students, Tyron and Ashlun, now both apprentices with Blood Toyota, are both doing extremely well.
