

It was a great PD activity recently where our P-TECH industry partner IBM facilitated a session on LinkedIn.

Trevor from IBM explained how to set up a LinkedIn profile, the benefits of it as a professional network and Michelle the official photographer took professional photos of each student to include as part of their profiles.

By the end of the session all students had set up their very own LinkedIn account.

Thanks again to *Trevor and Michelle* who came from Ballarat and *IBM* for providing this opportunity to our students.
