

Learning in the Laboratory

Recently P-TECH student Jake started his Certificate III in Laboratory Skills at the Gordon and he is the very first student to be mentored by Adele at the brand new facility at Australian Laboratory Services (ALS).

ALS is a global company with 50 locations around the world. It provides laboratory testing, inspection, certification and verification solutions.

Jake - dressed in his lab coat, gloves and safety glasses - commenced with a safety induction session followed by a tour of the chemistry, micro-biology and biology labs.

He was introduced to a number of the chemists and biologists he will be working with during the year.

Thanks to mentors Frank and Adele, Jake will have an amazing experience at ALS.
