

P-TECH Icebreaker Session 2019

The annual ice breaker session facilitated by Tom from High Resolves was held recently.

The new 2020 P-TECH students and new mentors met for the first time and enjoyed a number of interactive sessions. The day ended with students reflecting on their vision for a "better self".

Thanks Ben from *Geelong Technology Group* and *Michael* from *Barwon Health* Biomed team for participating on the day.

Thanks again to our industry partner *IBM* for sponsoring High Resolves who facilitated the program.
