

Congratulations Lachlan

After attending a regular work placement for most of last year Lachie has been offered an apprenticeship with our P-TECH industry partner Backwell IXL.

Thanks to *Sean Boswell* General Manager for supporting our P-TECH Program and giving Lachie the opportunity to experience working in a field of work that he thought he might be interested in. A very successful "try before you buy" outcome.

Check out Lachie inspecting a casting pattern mould in the workplace and also with his IXL Metal Castings apprentice team members.
