

## Guess who has a work placement this year at Australian Laboratory Services?

Recently Eliza in Year 10 was invited to come and visit ALS and learn all about what ALS do. Eliza has enrolled in the Certificate III in Laboratory Skills at the Gordon and has a strong interest in science. ALS has an amazing Chemistry, Biology and Micro Biology lab which Eliza enjoyed seeing and hearing about the work they do – mainly in the area of water testing.

The end result of the visit was Eliza has been offered a regular work placement with ALS which will complement her studies at the Gordon.

ALS are a strong supporter of the P-TECH program and once again we would like to thank them for their ongoing support.
